

FYI Gadgets

See It, hear it, taste it, love it, keep it!

| By David Geer

This one is for the senses!

O Rokr Eyewear from Oakley rides the rays with High Definition Optics (filters all UV) in mega conjunction with Motorola as your new sight / sound receptacle.

The hottest Oakleys sport embedded Motorola speakers for listening to choice music via Bluetooth wireless from your mobile phone, iPod or MP3 player (Bluetooth A2DP and AVRCP technologies required). Wait, is that your best friend cutting in on a sweet track? Yes, O Rokr is a phone headset, too.

O Rokr Mylar speakers pivot at three points to put your tunes where your brains are without plugging up your ears. Speakers roll away to cut from music to the rest of the world, should you so decide. Three stem-based buttons control calls and music.

Available with Brown Smoke stems and Bronze lenses or White stems and Grey lenses, and Oakley Prescription Lenses.

Whether you are looking for an artfully antique secure enclosure as fine as the items you treasure or tomorrow's state-of-the-art luxury safe, Dotling has your goods surrounded.

To this day, the Dotling family maintains a tradition of architecting luxury safes to standards of excellence that have all but become extinct in the modern world. In addition to passing rare safes to the next privileged owner, Dotling makes modern safes of the highest distinction.

Today's representative of the Dotling history of craftsmanship, Markus Dotling, brings you the Bel Air, the latest and the best in highly-fashionable, 'life-stylish' safes reminiscent of the large wardrobe trunks trapped in classic movie scenes.

All materials are hand-fashioned from gold, fine timbers and other classic materials with the full stamp of approval of fine German engineering.

What's delish for the digital age? MyFountain!

Why go back to the future when you can whip up your own fountain drink here? This digital beverage system fraps up fruit juices, crushes ice with carbonated favorites and mixes flavored waters, teas, coolers and liquor-based brews.

Even the slightest member of this party-maker dispenses eight concentrates, two beers and two wines. Serve hot and cold or carbonated drinks and play host full-time (leave the clean-up to the dispenser's automatic sanitizing mechanism).

MyFountain surfs the Net to catch the best drink recipes. The appliance, popular with guests, is child proof so the kiddies can't sample the hard stuff and offers a password for security so you can have your chocolate cake shot and keep it safe, too!

Other models ramp up the features offering endless delights for those with well-tempered taste buds.
